Abstract of TW 448388 (B)

It is a kind of disposal method of network link passing charge for digital versatile disc and digital television playing module. There includes a default web page in the DVD or DTV playing module that can be activated by this playing module. The default web page has dynamic link to playing module related products (like DVD and DTV materials or commercial message). When the dynamic link is selected, it attaches a string to show the publishers of the DVD or DTV playing module according to the corresponding link instruction of the above-mentioned dynamic link. And web pages linked can pay the corresponding passing charge to the above-mentioned publishers after the transaction has been completed according to the attached strings.
